Year Book Editor	J. E. Carson McGowan
Emergency Service	M. Cornish
Mediations	E. R. W. Bilkey

President's Foreword

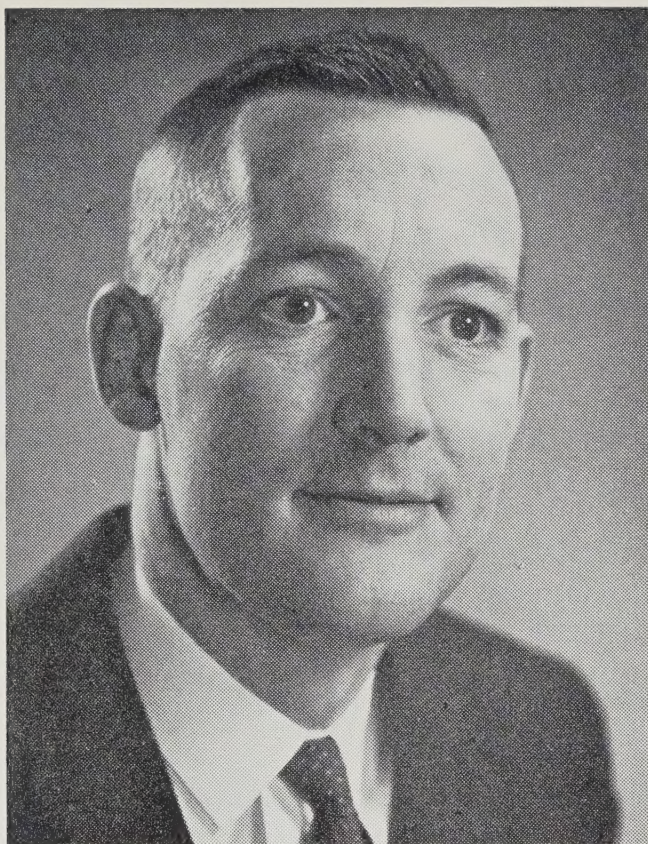

On the threshold of another Academy year, we present your Year Book for 1960-61. This is your manual for the coming year's activities, not only of the Academy but your local society. Within these pages are also listed the committees of all societies of interest to Academy members.

You will note that the format of this year's program has been changed to include one all-day presentation, along with the two regular evening Stated Meetings. In bringing a clinician to Toronto for a full day, it is felt that our members will receive greater benefit from the presentation, particularly with a clinician such as Dr. Phillips. We trust that the attendance at this meeting will support our endeavour to provide the best for you.

The dental profession as a whole is duly proud of its recently constructed Faculty Building, with the ultra modern decor and facilities for teaching. We were honoured to be invited to make use of these facilities for our evening Stated Meetings, and feel that it is a step forward to change our locale to the seat of dental education.

It is the fervent desire of your Council to keep pace with the ever-increasing membership of the Academy of Dentistry by providing a program of the greatest variety and highest calibre. To get the most from your membership we urge you to take advantage of all meetings and share in the knowledge and fellowship they provide. Your support through membership and attendance is our greatest compliment for a service to our profession.

VERNON A. HERRON,
President.

DR. VERNON A. HERRON — BIOGRAPHY

Dr. Herron graduated from Riverdale Collegiate in 1942 and served in the Royal Canadian Air Force until 1945.

After the war, he studied dentistry at the Faculty of Dentistry, University of Toronto, and on receiving his D.D.S. degree in 1950 began practising at Queen Street East, where he has had an office ever since.

Dr. Herron first became a member of the Council of the Academy of Dentistry in 1955 and he served as chairman of the Dental Public Health and Year Book Committees until his election to the post of Treasurer in 1957. Dr. Herron and his family attend Presteign United Church in Scarborough, where he is an Elder. He is also a member of the Scarborough Golf and Country Club.

CALENDAR OF DENTAL MEETINGS

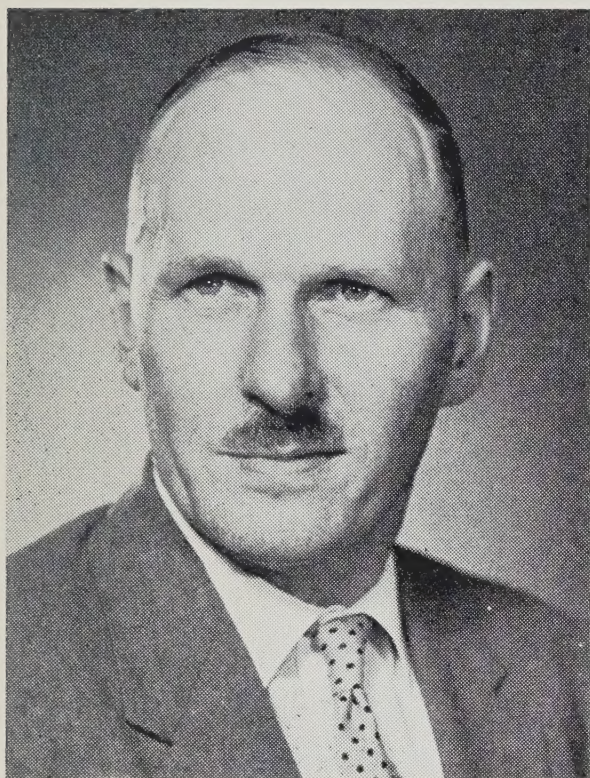

1960

- Sept. 15 — North Toronto Golf Tournament
Sept. 25-28 — C.D.A. Convention, Ottawa
Oct. 6 — East Toronto Golf Tournament
Oct. 13 — ANNUAL DINNER MEETING, ROYAL YORK HOTEL
Nov. 1 — Central Toronto Meeting
Nov. 9 — West Toronto Meeting
Nov. 15 — North Toronto Opening Dinner
Nov. 17 — East Toronto Dinner Meeting
Nov. 24 — ANNUAL WINTER CLINIC, ROYAL YORK HOTEL

1961

- Jan. 10 — North Toronto Meeting
Jan. 11 — West Toronto Meeting
Jan. 12 — East Toronto Meeting
Jan. 19 — FIRST STATED MEETING, FACULTY OF DENTISTRY
Jan. 31 — Central Toronto Meeting
Feb. 7 — North Toronto Clinic Night
Feb. 16 — East Toronto Meeting
Feb. 23 — SECOND STATED MEETING, ALL DAY CLINIC
AT KING EDWARD HOTEL
March 3 — ACADEMY DINNER DANCE,
REGENCY TOWERS HOTEL
March 8 — West Toronto Meeting
March 14 — North Toronto Ladies' Night
March 23 — THIRD STATED MEETING,
FACULTY OF DENTISTRY
Apr. 4 — Central Toronto Meeting
May 21-24 — O.D.A. Convention

ANNUAL DINNER MEETING
ROYAL YORK HOTEL
FELLOWSHIP HOUR 6.00 P.M. DINNER 7.00 P.M.
THURSDAY, OCTOBER 13, 1960

Guest Speaker:

P. D. McTAGGART-COWAN
 Director, Meteorological Branch
 Dept. of Transport

Topic:
"International Meteorology"

SYNOPSIS

Weather and climate are a natural resource of a country. They do not respect man-made national boundaries and the effective provision of meteorological service to the peoples of the world requires a high degree of international co-operation. As a result, meteorology is one of the oldest fields in which there has been extensive co-operation between countries and has weathered many political storms. Meteorology also plays a very important role in the initial planning for the improvements in under-developed countries and is therefore of importance in Colombo Plan and U.N. Special Assistance work.

My address will develop this thesis through example and exposition, including inter alia mention of the specialized agencies of the United Nations of which the World Meteorological Organization is one.

Biography: P. D. McTaggart-Cowan

Born in Edinburgh, Scotland and came to Canada when a boy.

Received education in Vancouver and after a year of post-graduate work was the British Columbia Rhodes Scholar at Corpus Christi, Oxford.

Attached to the British Meteorological Office at London Airport, Croydon, for a year.

Responsible for the organization and development of meteorological service in Newfoundland — initially for experimental trans-Atlantic flights pre-war, and, subsequently, for wartime delivery of aircraft to Britain.

Set up, and was Officer-in-Charge of the Meteorological Offices at Botwood and Gander, Newfoundland.

1942 - 1945 — Chief Meteorological Officer, R.A.F. Ferry Command — Responsible for the Trans-Atlantic Forecast Office at Dorval.

1945 — Loaned to the Provisional International Civil Aviation Organization as Secretary for Air Navigation pending the appointment of permanent international staff.

1946 - 1957 — Assistant Director and Chief, Forecast Division, Meteorological Branch, Department of Transport.

1958 — Associate Director, Meteorological Branch.

Received M.B.E. for services with R.A.F. Ferry Command.

Received Coronation Medal.

1959 — Received Robert M. Losey Award from Institute of the Aeronautical Sciences "In recognition of outstanding contributions to the science of meteorology as applied to aeronautics."

October 1959 — Director, Meteorological Branch.

January 1960 — Vice-President, American Meteorological Society.

HONORARY LIFE MEMBER — 1960

DR. ROY G. ELLIS

ROY G. ELLIS

D.D.S., M.Sc.D., F.D.S., R.C.S. (ENG.)

Canadian Dental Association since 1952. Elected an honorary member of the Royal Society of Medicine of the United Kingdom, May 1952.

Past President, American Association of Dental Schools, 1958.

When appointed Dean of the Faculty of Dentistry in July 1947, he was the youngest to be appointed to such a responsible post. As the fifth Dean of Dentistry he succeeded a line of illustrious men who by their vision, ability and devotion brought dentistry and dental education in this province, and indeed throughout the world to the foremost position it now enjoys. Dean Ellis has demonstrated that he is a worthy successor to former Deans, and under his leadership and energy dental education will go forward to even greater effectiveness.

If Dean Ellis had done nothing else, the concept, planning and realization of the new dental building is an accomplishment which has enhanced the place of dentistry in the health services. This was a tremendous undertaking and under his capable and untiring leadership the dream of the finest dental building, and facilities for the education of dental students to be found anywhere, became a reality. His clear conception of how to go about it and how to actually do it have been an inspiration to all who had a part in the development of our splendid institution. He possesses the faculty of getting people to do things and at the same time gives everyone the assurance that it is a cooperative effort.

Everyone must realize that the life of a Dean is a mixture of good and bad days, victory and defeat, give and take, and it is for his own qualities and personality that we are honouring him in this presentation.

Born and educated in Australia. Graduated with the B.D.S. degree in 1926 from the University of Adelaide, South Australia. Received the D.D.S. degree from the Faculty of Dentistry, University of Toronto in 1929. Awarded the M.Sc.D. degree in 1942 for work on electrodeposition as applied to the dental field.

Member of the teaching staff, full time, at the University of Toronto since 1931. F.A.C.D. conferred by the American College of Dentists in November 1946. Fellowship in Dental Surgery, Royal College of Surgeons of England, conferred in June 1948. Member of the Senate of the University of Toronto.

In 1938, at the request of the Diocese of the Arctic, Church of England, established the dental clinic at All Saint's Hospital, Aklavik.

Appointed Dean of the Faculty of Dentistry in July 1947. Professor of Operative Dentistry since 1945. Author of the text, "Classification and Treatment of Injuries to the Teeth of Children".

Appointed External Examiner, University of Malaya in 1952. Member of the Council on Dental Education,

ANNUAL WINTER CLINIC

Luncheon Speaker: MR. JOEL ALDRED

Subject: "Canadian Television — 1961"

Mr. Joel Aldred the president and general manager of CFTO-TV, Toronto's new television station, is a well known figure to millions of viewers on this continent.

Mr. Aldred served as a pilot with the R.C.A.F., was awarded the D.F.C. and retired at the end of the war with the rank of squadron leader. His start in show business occurred during war service, as the producer and director of a successful two hour variety show, and from there he has explored many areas of the entertainment field, in all of which he has shown himself to be competent and successful.

Radio broadcasting and writing; film production, directing and narrating; television announcing and hosting, in colour as well as black and white; television advertising for which an international award has been won, are some of the fields with which he is intimately familiar.

Not only in the creative media, however, has he shown his ability. The successful administration of two farms, one a fine experimental tobacco farm, has demonstrated the diversity of Mr. Aldred's talents. And now, assuming the role of President of Toronto's Channel 9, he moves into the position for which his training has suited him.

ANNUAL WINTER CLINIC
THURSDAY, NOVEMBER 24, 1960
ROYAL YORK HOTEL

The challenge to the profession to expand and improve is ever constant and is met, in no small measure, by attendance at various gatherings where dental knowledge is disseminated. The programme the Committee has planned we are sure you will find is in keeping with the high standards of previous meetings. A warm and cordial welcome awaits all. And we hope that each and every one will be amply compensated with information on the latest and finest in our profession, and will fully enjoy the friendly fellowship.

SEE AND HEAR:

Dr. Wallace J. Gardner, Cambridge, Massachusetts.
Subject — “*Audio Analgesia*”.

Dr. Earl E. Sheppard, Professor of Orthodontics, Washington University, St. Louis, Missouri.
Subject — “*Interceptive Orthodontics*”.

PAST PRESIDENTS OF THE ACADEMY OF DENTISTRY

The Past Presidents of the Toronto Dental Society are identified as Past Presidents of this Academy. Below is a list of the Past Presidents indicating the year they held office:

*1891-92	N. Pearson	*1925-26	W. G. L. Spaulding
*1892-93	J. B. Willmott	1926-27	H. G. Robb
*1893-94	N. Pearson	1927-28	R. S. Woollatt
*1894-95	W. H. Wunder	1928-29	W. B. T. Amy
*1895-96	G. S. Martin	*1929-30	T. E. C. Butler
*1896-97	H. E. Eaton	1930-31	E. C. Veitch
*1897-98	A. J. McDonagh	1931-32	J. W. McDonald
*1898-99	J. E. Wilkinson	1932-33	T. R. Marshall
*1899-1900	J. B. Willmott	1933-34	E. A. Grant
*1900-01	A. E. Webster	1934-35	Frank Martin
*1901-02	F. D. Price	*1935-36	Wm. J. Kerr
*1902-03	W. E. Willmott	1936-37	S. S. Crouch
*1903-04	G. S. Martin	1937-38	Harvey W. Reid
*1904-05	C. E. Pearson	*1938-39	Harold Hoag
*1905-06	W. G. L. Spaulding	1939-40	Wm. G. Trelford
*1906-07	J. B. Willmott	1940-41	Edmund T. Guest
*1907-08	R. G. McLaughlin	1941-42	Stewart A. MacGregor
*1908-09	A. J. McDonagh	1942-43	Lloyd M. Grose
*1909-10	H. E. Eaton	1943-44	Charles McLean
*1910-11	A. E. Webster	1944-45	Harold Skilling
1911-12	A. D. A. Mason	*1945-46	Harold A. Swales
*1912-13	C. A. Kennedy	1946-47	H. Colton Bliss
*1913-14	W. E. Willmott	1947-48	F. Harold Shepherd
*1914-15	G. W. Grieve	1948-49	J. H. Johnson
*1915-16	F. C. Husband	1949-50	E. A. White
*1916-17	E. F. Arnold	1950-51	Earl Bancroft
1917-18	W. B. T. Amy	1951-52	Mark G. Boyes
1918-19	J. E. Rhind	1952-53	J. Gordon Chalmers
*1919-20	R. D. Thornton	1953-54	E. J. Henderson
*1920-21	W. H. Coon	1954-55	W. James Smith
*1921-22	H. A. McKim	1955-56	J. Bevan King
1922-23	R. Gordon McLean	1956-57	Harvey Milburn
*1923-24	J. A. Bothwell	1957-58	Robert W. Marshall
*1924-25	Arthur Day	1958-59	William A. Weir
		1959-60	J. A. Bigelow

*Deceased

FIRST STATED MEETING
FACULTY OF DENTISTRY **8.15 P.M.**
THURSDAY, JANUARY 19, 1961

Essayist: HELMUT A. ZANDER,
D.D.S., M.S.

*Subject: "Recent Research
Contributions to Periodontics"*

DR. HELMUT A. ZANDER

Dr. Zander received his D.D.S. degree from Northwestern University in 1938 and his M.S. degree from the same school in 1940. For two years, from 1938-40, he was Assistant in Children's Dentistry at Northwestern University, and then Associate in Research (Oral Pathology) there for two more years. In 1942 he went to Tufts University in Boston where he spent nine years, first as Assistant, then Associate, Professor in Clinical Dentistry (in charge of Oral Diagnosis), later as Professor of Oral Pediatrics.

In 1951 Dr. Zander went to the University of Minnesota as Professor and Chairman of the Division of Periodontology. After six years there he took the position, in 1957, of Head of the Department of Periodontology at the Eastman Dental Dispensary in Rochester, New York.

He has constantly carried out extensive research and written many scientific papers which have appeared in various professional journals. In 1957, at the invitation of the Dental Association of the Union of South Africa, he spent two months on a lecture tour in that country.

He is a member of the following organizations: Omicron Kappa Upsilon, Sigma Xi, American Dental Association, American Society of Dentistry for Children, American Association of Endodontists, International Association for Dental Research, American Academy of Dental Science, American Association for the Advancement of Science, Society for Experimental Biology and Medicine, American Academy of Periodontology, and the Royal Society of Health. He is also an honorary member of the Dental Association of South Africa.

Recent Research Contributions to Periodontics

Studies with the electromyograph and with tracings have clarified a great deal the existing confusion in the field of occlusion. This research has led to an understanding of basic principles in occlusal adjustment which hold true for the orthodontist, periodontist, prosthodontist and for occlusal rehabilitation.

In the field of periodontal disease the greatest advances through research have been made in the area of calculus formation. Biochemistry, optical and electron microscopy have contributed to an understanding of calculus formation.

I shall endeavour to translate the research findings in these two areas into meaningful application for the practice of dentistry.

SECOND STATED MEETING

KING EDWARD HOTEL

ALL DAY CLINIC

THURSDAY, FEBRUARY 23, 1961

Clinician: RALPH W. PHILLIPS
F.A.C.D., F.I.C.D.

*Topic: "Evaluation of Newer
Dental Materials and Factors
Affecting Their Clinical
Success"*

This presentation is concerned with all the newer advancements in this field and among other things, includes an evaluation of the rubber base and silicone impression materials and factors which affect their accuracy, recent research with the amalgam restoration including mechanical devices, adaptation of various restorative materials and the comparative ability of each to resist caries, the current status of self-cured resins in restorative and prosthetic dentistry, etc. This talk will bring the dentist abreast of the current status of the many, many new materials and techniques, as well as emphasizing manipulative factors which affect their success. The clinical application will be continually stressed.

Biography: Special Honors

1. Fellow, American College of Dentists; Fellow, International College of Dentists.
2. Received the Wilmer Souder Award from the International Association for Dental Research in 1959. This is the highest honor from this association for research in the field of dental materials.
3. Awarded the Annual National \$500 Research Award from the Chicago Dental Society in 1948 and 1957 (only person to ever receive this honor twice).
4. Recipient of the Gold Medal Research Award from the Alumni Association of Columbia University Dental School in 1957.
5. Recipient of the Annual Recognition Award (1957) from the Indiana University Student Union Board for outstanding service to Indiana University.
6. Research Consultant to the United States Public Health Service, U.S. Air Force, American Dental Association, Veterans Administration, U.S. Navy and various commercial manufacturers.
7. Honorary Vice-President of the International Dental Congress, Rome, 1957.
8. Honorary Member, American Academy of Restorative Dentistry.
9. Fellow, American Association for the Advancement of Science.
10. Editorial Board, Archives of Oral Biology, Journal of Dental Research, New York Journal of Dentistry.
11. Member, Survey of Dentistry Research Committee; and Dental Study Section of the United States Public Health Service.

Present Position

A graduate of Indiana and also holds the M.S. degree in chemistry; now Professor and Chairman, Department of Dental Materials, Indiana University School of Dentistry. Position consists of teaching the undergraduate, graduate and postgraduate courses in this field and the direction of all research in dental materials.

DRESS — BLACK OR WHITE TIE

THIRD STATED MEETING
FACULTY OF DENTISTRY
THURSDAY, MARCH 23, 1961

8.15 P.M.

Essayist: E. R. W. BILKEY, D.D.S.

Topic: "*Mediations*"

This somewhat nebulous subject and the positive aims and objectives of the Mediations Committee of the Academy of Dentistry, Toronto, will be discussed. Some of the following allied subjects that seem directly related to mediations problems will be considered:

1. Basic differences between professional and business life.
2. Unalterable responsibilities to society, and to our profession.
3. The establishment of fees.
4. Government interest in professional services.
5. Specific examples of successful and unsuccessful mediations.

Biography

Associate in the Paedodontic Department, Faculty of Dentistry, University of Toronto for seven years.

A past president of the Canadian Society of Dentistry for Children.

Chairman of the Mediations Committee of the Academy of Dentistry, Toronto.

A past member of the Dental Public Health Committee of the Ontario Dental Association, and member of the Editorial Board of "Oral Health".

Editor of the Journal of the Canadian Dental Association.

Graduated in 1947 from the Faculty of Dentistry, University of Toronto.

Recipient of the Academy of Dentistry Prize for Dentistry for Children.

THE CANADIAN DENTAL ASSOCIATION

MESSAGE FOR THE TORONTO ACADEMY OF DENTISTRY

Thirteen years ago the Province of Saskatchewan inaugurated Provincial Hospital Insurance. Canada now has National Hospital Insurance. This same Province will enact the necessary legislation for a State Medical plan within the next year.

Dentistry is an important and essential part of health services.

The Provinces of Alberta and Manitoba have passed legislation respecting Dental Auxiliaries. The Auxiliaries now legally perform services, which in the past were thought to be the prerogative of the Dental Profession only.

It is difficult to swim against a strong current or to fight a popular trend.

The obligation confronting our profession is to plan for the retention of high standards, proper training and the maintenance of control in future developments.

But not too late.

The challenge today is for more conscientious thought on the part of the individual dentist and a high degree of leadership from those who head our group associations.

Quo Vadis!

On behalf of the Canadian Dental Association, may I wish the Academy of Dentistry a successful and thought-provoking year.

JAMES P. WHYTE, D.D.S.

(Dr. J. P. Whyte will assume the Presidency at the C.D.A. Meeting in September)

DENTAL PUBLIC HEALTH

National Health Week for 1961 is being observed from March 12-18 and Dental Health Day on March 15 of the same week.

The Dental Public Health committees are concerned, as we all should be, with the recruitment and placement of dental personnel. No less than 400 letters a week arrive at the Department of National Health and Welfare decrying the lack of dentists and dental services. We in the Province of Ontario, with one of the finest schools in the world, must recruit personnel capable of serving all of the public in the best manner possible.

The American College of Dental Surgeons has found that the most influential person in recruitment of dental personnel is the dentist himself through his contacts with young patients. By taking the time to explain and show our young patients the many advantages to be had from a career in dentistry we could help to meet this need.

In Metropolitan Toronto 1,650 people are served by each dentist, while in Ontario as a whole, 1 dentist serves 2,350 people. These figures show that the majority of dentists practice in the larger populated areas while the outlying districts are literally "starving" for dental service. We must have more men to serve these smaller areas. It has been suggested that outlying towns could interest their own youth in taking a dental education by materially helping those interested in financing their careers.

The Faculty realizes that it must admit more students from the smaller areas with the hope that they will return to their home towns and practice there.

Surely the advantages of so called "small town" practice are too many to be overlooked by those considering a career in dentistry.

Let us help our Dental Public Health Committees in the coming year by giving just a little of our time to recruit and place some of our own aspiring young patients in the profession which has been so good to us all.

CAN YOU COMMUNICATE?

If you have an idea, a dream, one firm conviction can you pass it on to someone else? The failure of not being able to communicate clearly, concisely, with nice shades of meaning, is a major problem even at the highest level of world affairs.

And strangely it is a major problem at the level of the individual dentist. With so much helpful information, so many constructive health concepts at his disposal, a professional man fails his profession and himself if he can not and does not indulge in some productive missionary work.

One of the more important tools available, is the ability to speak publicly. Some years ago, the Academy sponsored a course of instruction under the direction of Mr. C. W. Wright. It was most successful. Again this year, the Academy is arranging this opportunity for members — not just budding politicians.

Morley G. Hardy is handling the details, and a comprehensive announcement will be available for all members.

THE CROWN AND BRIDGE STUDY CLUB

PROGRAM FOR 1960 - 61

OFFICERS FOR 1960 - 61

Honorary President	Frank Martin
Past President	Fred Froud
President	Ken Nicholson
Vice-President	Tats Hori
Secretary-Treasurer	Gord Perlmutter
Program Chairman	Miet Kamienski
Corresponding Secretary	Tony Manis

- Oct. 6 — “The Role of Endodontics in Crown and Bridge”, Dr. A. I. Arshawsky, Toronto.
- Nov. 3 — “An Analysis of Crown and Bridge Procedures and Problems”, Dr. R. T. Lamb, B.Sc., D.D.S., Montreal.
Afternoon (2-5) Session and Evening (8-10) Session.
- Dec. 1 — Members Group Clinic Night.
- Jan. 5 — Faculty Clinic Night at the Dental Building.
- Feb. 2 — “Complete Dentistry”, a new 16mm. sound, color film, by Dr. Ercell Miller, Columbia, Missouri.
Presented by Williams Gold Co.
- Mar. 2 — “Methods of Bridge Construction — A Comparison of Concepts”, Dr. J. F. Johnston, D.D.S., F.A.C.D., Indianapolis.
Morning (9-12) Session, Luncheon and Afternoon (2-5) Session.

The program chairman was fortunate in obtaining two well known lecturers in Crown and Bridge, as well as Dr. Arshawsky, an endodontist from Toronto. Because two of the lecturers come from some distance, the club plans to have two all-day sessions, in order that these men will have ample time to present their material.

During the past season a new idea was incorporated. This was a “Members Group Clinic Night”, at which four appointed members gave a fifteen minute table clinic on some interesting phase of Crown and Bridge.

Since the new Faculty of Dentistry building has been opened the club plans to have a clinic night there under the auspices of the Crown and Bridge Department.

New members are welcome. For further information please communicate with the Corresponding Secretary (WA. 2-4930) or any member of the executive.

Academy membership necessary. Fee \$15.00.

TORONTO ORTHODONTIC STUDY CLUB

Past President	Dr. A. Posen
President	Dr. W. J. Spence
Vice-President	Dr. H. W. Shanks
Secretary	Dr. Bert Levin

Last year's very successful program is being followed up with equally good plans for the coming season.

ONTARIO SOCIETY OF ORAL SURGEONS

President:

DR. JOHN F. METHVEN
86 Bloor St. W., Toronto

Secretary-Treasurer:

DR. R. W. MARSHALL
74 St. Clair Ave. W., Toronto

The Ontario Society of Oral Surgeons is the official organization of the oral surgeons of Ontario. It meets four times each year to hear noted speakers and to conduct its business. The insurance committee of the society has been very active in the compilation of fee schedules and in negotiation with insurance groups who are underwriting surgical benefit insurance. Copies of the fee schedule are available to any dental or insurance organization upon request.

Membership in the society is limited to certified oral surgeons in Ontario, and applications for membership should be directed to the secretary-treasurer.

The society would welcome the opportunity of assisting in the planning of any scientific programme of any of the dental organizations in Ontario.

SECRETARY'S REPORT 1959 - 1960

Membership in the Academy of Dentistry, Toronto, again increased to a new high of 688, under the excellent leadership of our President Dr. James A. Bigelow. Our total membership consisted of 643 active members, 36 honorary members and 9 honorary life members.

Our programme got off to an early start with our part in Canada's first Health Science Exposition, Mediscope '59. This exhibit in the C.N.E.'s Queen Elizabeth Building was open from ten o'clock on Thanksgiving morning, October 12th until the following Saturday and was thronged with interested visitors during the entire exposition. The Academy aided in financing the cost of the exhibit and assisted in manning the display with dentists, hygienists and dental assistants. The success of this exposition surpassed the most optimistic hopes of those who envisioned and developed it.

The Annual Dinner held October 26th, 1959, at the Royal York Hotel, marked the opening event of the year with an attendance of over three hundred. The guest speaker for the evening was Dr. Ernest M. Howse of Bloor St. United Church who provided us with a most startling and thought-provoking address on the subject "The Problem of People."

The Annual Winter Clinic under the general chairmanship of Dr. Vernon A. Herron was an outstanding success. It was our first clinic to be held in the luxurious, expanded accommodations of the Royal York Hotel and the attendance well exceeded any previous clinic. Sincere appreciation is herewith extended to the programme clinicians who contribute so much of their time to the advancement of Dentistry and to the maintained success of the Winter Clinics. The programme was highlighted with the luncheon address by Dr. William G. McIntosh, President, Canadian Dental Association. His presentation was as always most inspiring on the subject "Canadian Dentistry Today."

Our programme in the new year commenced with the First Stated Meeting on January 21st, 1960, when Dr. Robert B. Shira, Washington, D.C., was our essayist. His subject was "Management of Operative and Postoperative Complications in Exodontia and Oral Surgery."

The Second Stated Meeting on February 18th, 1960, included three clinicians from the Academy of Medicine, who presented a panel "Your Health — Are You Safe-Guarding It?" Dr. O. Harold Warwick spoke on "An Assessment of Certain Aspects of the Cancer Problem;" Dr. George A. Gow "Some Recent Advances in Heart Diseases;" and Dr. J. N. Swanson "Some Current Ideas on the Cause, Course and Treatment of Arthritis."

The Third Stated Meeting took place on March 24th, 1960, with Dr. Robert K. Stinaff, Chicago, as our guest clinician, speaking on the subject "Why We Gain and Lose Patients."

This was "Past Presidents' Night" and was marked by an almost complete attendance of the previous Presidents of the Academy. The 1960 - 61 Council was inducted into office at this meeting.

February 3rd, 1960, was designated as Dental Health Day in Ontario during National Health Week. The Academy's Dental Public Health Committee was effective in making this day's programme a success in the Toronto area.

The third and again a most splendid and enjoyable Dinner Dance was held on March 4th, at the Granite Club. This social highlight of the year is becoming increasingly popular annually.

The Mediations Committee has had a most active year in solving both telephone and written complaints. Several dentists have already expressed their appreciation for the satisfactory termination of situations that could have led at best to ill feelings, and at worst to the unpleasantness of legal proceedings. This committee has proven how invaluable it is in improving public relations for our profession. The Emergency Service has also operated comparatively smoothly and efficiently through the co-operation of our members.

Our other services sponsored by the Academy are the Dental Nurses' and Assistants' Registry, operated by Mr. Ian Hannah and the Group Income Protection Insurance Plan, operated by the United Casualty Agencies Ltd.

The Academy of Dentistry Prize in the Faculty of Dentistry, University of Toronto, 1960, was won by Robert D. Wansbrough to whom we wish a most successful future.

Respectfully submitted,

A. E. HISTROP.

AUDITORS' REPORT

May 10th, 1960,
The Academy of Dentistry,
230 St. George Street,
Toronto, Ontario.

Gentlemen:

RE: Annual Audit — March 31st, 1960

This is to certify that I have examined the books and records of Receipts and Disbursements for the period ended, March 31st, 1960, and attach the various certified statements relating thereto.

The credit balance of \$5,178.06 with the Toronto General Trust Company's branch at 36 Bloor Street West has been verified:

Bank Balance (opening)	\$3,587.40
Operating Profit	1,590.66
	\$5,178.06

Dominion of Canada Bonds, amounting to \$8,000.00, have been examined in the Trust Company's office, also at 36 Bloor Street West.

Respectfully submitted,

RICHARD L. CLARKE,
Accountant, Commissioner, etc.

ACADEMY OF DENTISTRY
